

How often do you get the opportunity to earn ongoing commission every month.... forever, plus at the same time having additional security for your family?

COMPENSATION EARNINGS PLAN

HOME911, securing your family, empowering your community

What is HOME 911?

HOME911 is an emergency SMS PANIC button system which enables you and your family members to instantly notify your neighbours, friends and family that you are in urgent need of assistance at the touch of a button.

How do I get started?

Sign up for the HOME911 Cellphone panic button service.

What will it cost me?

For the above, each household/business (the HOME911 subscriber) pays the following: R75 per month, including VAT for up to 11 household members! Equating to as little as R6.82 per cellphone!

How do I start earning money?

Tell 3 people about HOME911's service and business opportunity and let them sign up.

How much do I earn?

You will earn R8.00 per month for every sign up on your first and 2nd levels and R4.00 per month for sign ups on your third and final level.

When will I start earning money?

You will start earning commission from your third sign up on a monthly basis?

How will I receive my commission?

HOME 911 will deposit your commission directly into your bank account?

How will I monitor my sign ups?

You will have free access to a full on-line management system, where by you can monitor your earnings progress 24 hours a day 365 days a year.

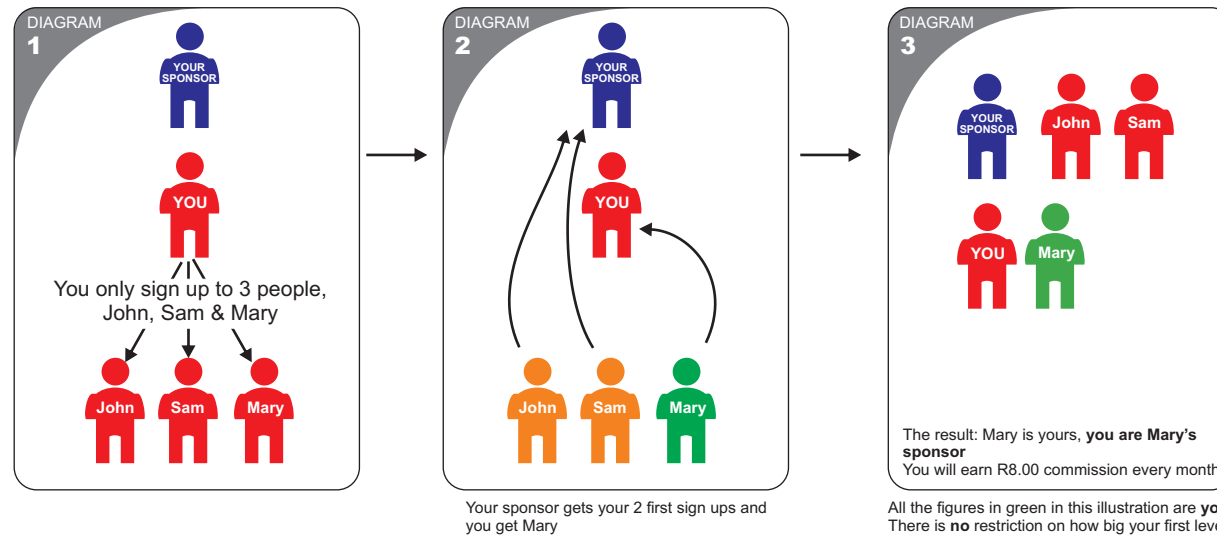

What is the catch?

Unfortunately, there's is no catch!

COMPENSATION EARNINGS PLAN

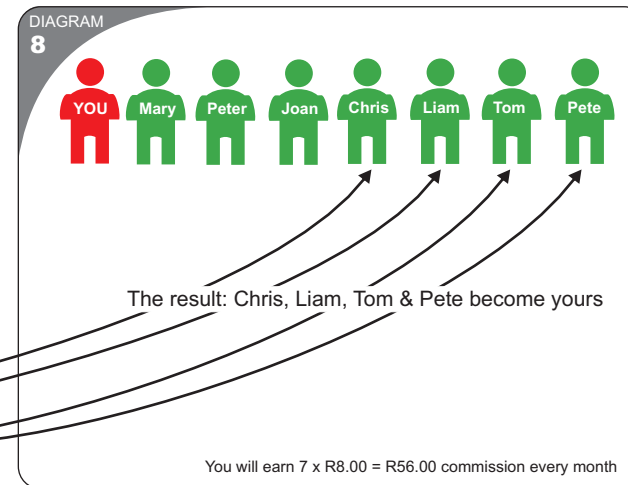

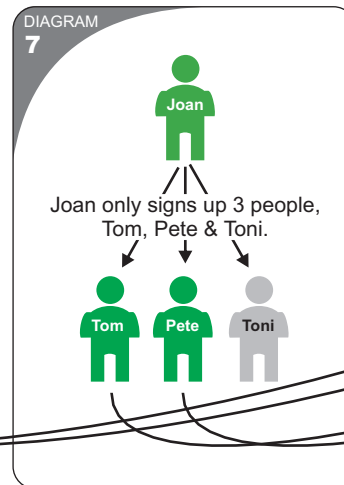

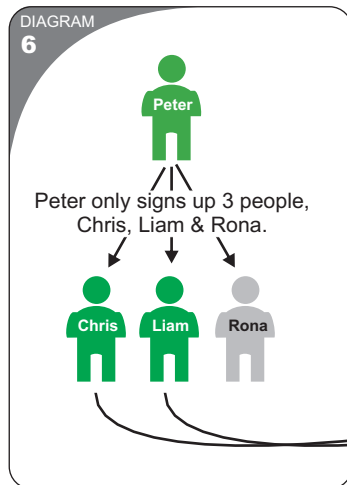

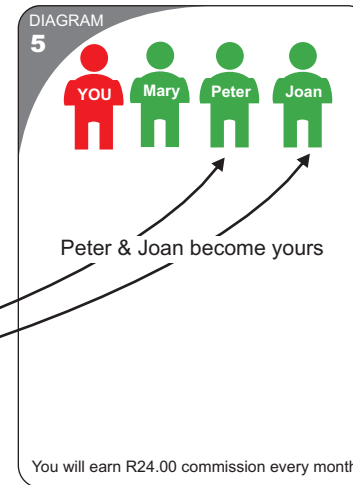

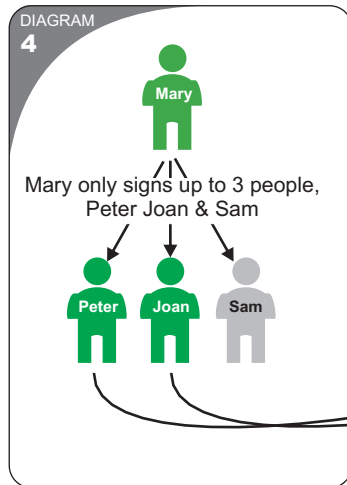

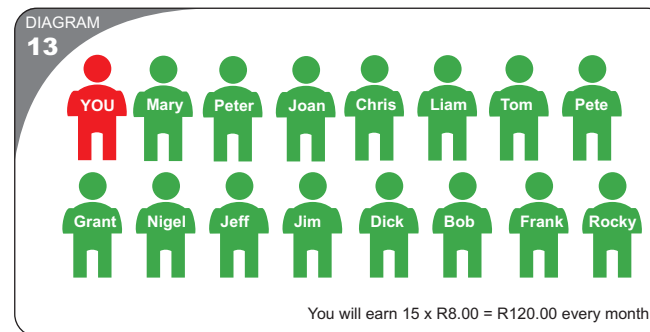

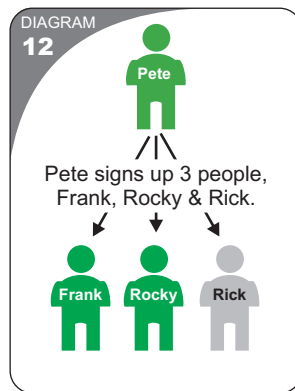

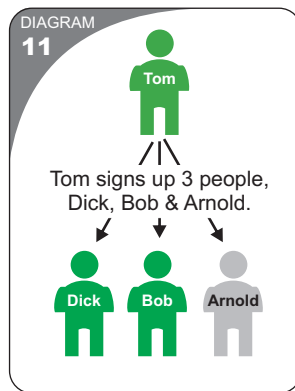

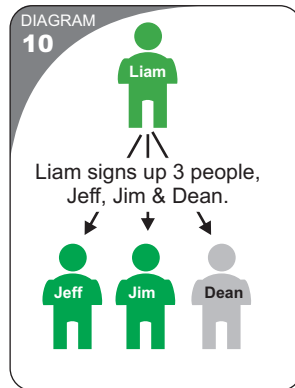

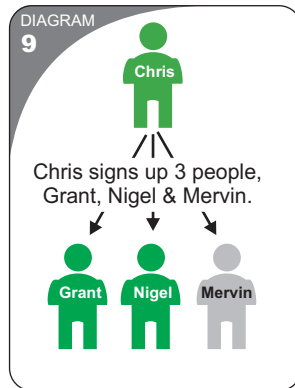

The following diagrams shows how you can earn ongoing passive income with Home911

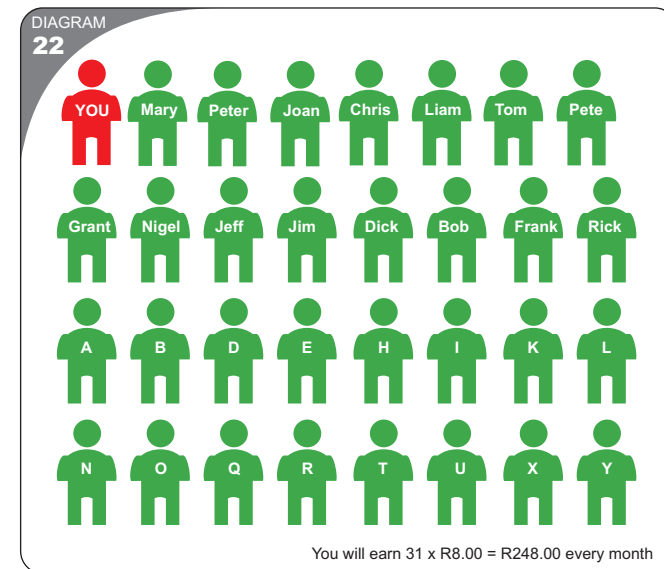

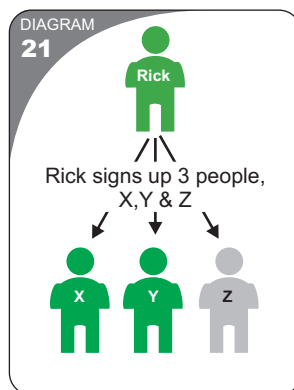

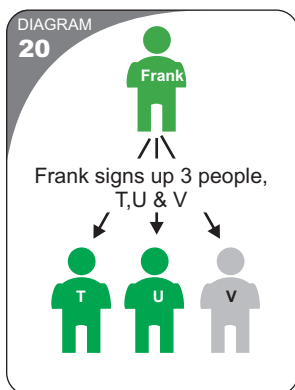

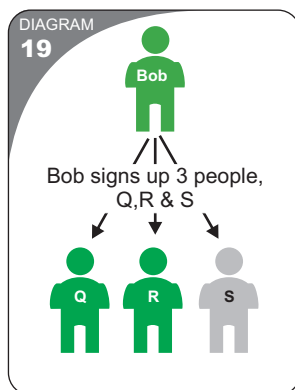

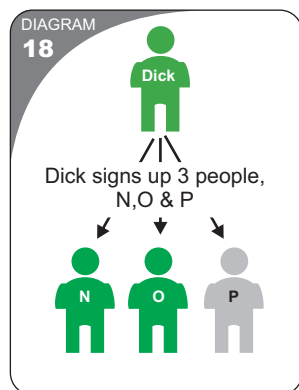

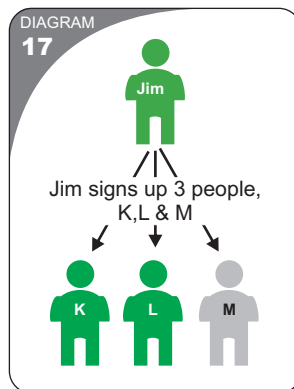

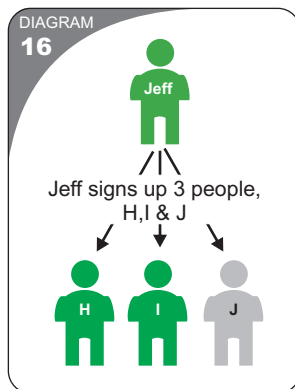

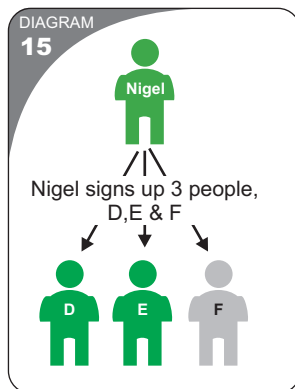

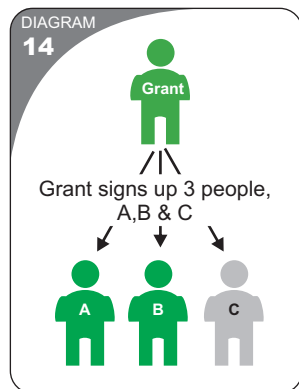

Note: As the system grows exponentially, it is impossible to illustrate its full potential in these diagrams, so in this example we only illustrate what happens by signing up 3 people every time on **your first level**.

There is **no limit** to how many people you can sign up. Remember, we are only illustrating 3 sign ups at a time.

The result: Grant, Nigel, Jeff, Jim, Dick, Bob, Frank & Rick are yours

The result: As you can see, it doubles up every time

A - Y sign up 3 people each, this will add another 32 people to your first level, giving you an income of $63 \times R8.00 = R504.00$ every month.

And those 32 sign up 3 people each, this will add another 64 people to your first level giving you $96 \times R8.00 = R768.00$ every month

Now those 64 sign up 3 people each, this will add another 128 people to your first level giving you $192 \times R8.00 = R1536.00$ every month, and this is only on your first level!!

And so on, and so on.....

In fact there are 2 other levels which will explode your earnings potential even further. Watch the PowerPoint presentation in conjunction with this one, and you will see that if everybody only signs up 3 and it takes a month, then in 12 months you will be earning well over R50 000-00 per month. If you signed up 4 originally instead of 3 then the figure will be well over R100 000-00 per month. The earning potential is endless, and for R75 a month you not only get a life saving product, but the opportunity to attain total financial freedom.

All the figures in grey become **YOUR 2nd level**, doing the same as Mary did in your first level, and increasing your income exponentially at the same time. Remember there is no limit to the amount of people you can have on any level.
